

Problem Statement 2

Stubborn Monalisa

Q. Monalisa is a good student but she is hiding something!
Can you figure out? All she keeps saying is:

Rf Uuh Uuh Cn Uup Ce Ag Ag Cn Bk Uup Uuh Md Cf Db Ds Pd Es Rg Mt Ag Th Bi Tb Lu Er Bk No Fm

Hint - Monalisa favourite subject is Chemistry

Note: - Please enter the answer in the format CCTC2020_<<Flag>>

[Download File](#)

Question tells that they are hiding something in the file .

Download File (https://techgig.com/files/contest_upload_files/Monalisa.zip)

The hint tells that her favourite subject is Chemistry.

So I started decoding the given elements that gives me a url:

<https://pastebin.com/ZSAGDafd>

when I visited that link I have another link (<https://www.beautifyconverter.com/>)

when I visited that link there are so many options , I was in a confusion state what I should check.

Then I remembered that we use steganography to hide the data in the file , so the given link says we have encoded by this link you can decode it straight away.

I search for the steganography then I find the steganographic decoder ,so straight away moved to that link and selected the pic and click enter. Then we have the flag value.Happy Hacking....!
